

Airport Charges Regulation

1 April 2025

Lelystad Airport

AIRPORT CHARGES REGULATION

The Public Limited Liability Company Luchthaven Lelystad, operator of the designated airfield Lelystad,

d e c i d e s :

to establish the following rates, referred to as airport charges, for the use of the designated airfield Lelystad by aircraft and/or passengers.

ARTICLE 1. DEFINITIONS

For the application of this regulation, the following terms are understood to mean:

a.	<u>Aircraft</u>	:	An aircraft heavier than air and equipped with a propulsion device (helicopters are also included);
b.	<u>Weight</u>	:	The maximum certified take-off weight of the aircraft, as indicated in the aircraft's certificate of airworthiness;
c.	24-hour period	:	A timespan of 24 hours, starting from the time of landing of an aircraft at the airfield;
d.	<u>Landing</u>	:	Any approach of the runway including touch and goes, low passes and missed approaches. The approach of the Final Approach and Take-off Area (FATO) by a rotorcraft is also considered a landing;
e.	<u>Overland flight</u>	:	A flight where the aircraft lands at a different airfield than the one it took off;
f.	<u>Terrain flight</u>	:	A flight where the aircraft lands at the same airfield it took off, without having landed at another airfield;
g.	<u>Parking</u>	:	The outdoor parking of an aircraft at the airfield;
h.	<u>Passenger</u>	:	An occupant of an aircraft who is not part of the flight crew;
i.	<u>Operator</u>	:	N.V. Luchthaven Lelystad;
j.	<u>Airfield</u>	:	The Lelystad airfield designated by the Minister of Infrastructure and the Environment (Minister van Infrastructuur en Milieu) or their predecessor;

k.	<u>Noise category</u>	:	Noise category measured according to ICAO measurement methods;
l.	<u>Security surcharge</u>	:	A surcharge upon the departure of an aircraft on flights for which certain security checks (on passengers and/or goods) apply as set by the government;
m.	<u>Air passenger tax</u>	:	Tax per departing passenger, applicable for the use of Lelystad Airport, based on the Environmental Taxes Act (Aviation Tax Act).

ARTICLE 2. LANDING CHARGES

- I. For aircraft landing at the airfield, landing charges are payable to the operator, the amount of which is determined by the following factors:
 - a. the weight of the aircraft;
 - b. the noise category of the aircraft;
 - d. the type of flight (terrain flight or overland flight);
 - e. the day of the week.
- II. To determine the noise category and the weight of the aircraft, the owner must, upon the operator's request, provide the operator with a digital copy or a hard copy of the aircraft's noise certificate.
- III. The price table included in **Annex 1** will be used to calculate the landing charges payable for **aircraft weighing up to and including 4,000 kilograms**.
- IV. To calculate the landing charges payable for **aircraft weighing more than 4,000 kilograms**, the following rates are applied.

Terrain flights:

- MTOW 4,001-8,000 kg: the charge for a terrain flight with a weight of 4,000 kg increased by **EUR 6,76** per landing per 1,000 kg weight or part thereof;
- MTOW 8,001-34,000 kg: the charge for a terrain flight with a weight of 4,000 kg increased by **EUR 12,40** per landing per 1,000 kg weight or part thereof;
- MTOW > 34,000 kg: the charge for a terrain flight with a weight of 4,000 kg increased by **EUR 13,02** per landing per 1,000 kg weight or part thereof.

Overland flights:

- MTOW 4,001-8,000 kg: the charge for an overland flight with a weight of 4,000 kg increased by **EUR 13,52** per landing per 1,000 kg weight or part thereof;
- MTOW 8,001-34,000 kg: the charge for an overland flight with a weight of 4,000 kg increased by **EUR 24,80** per landing per 1,000 kg weight or part thereof;
- MTOW > 34,000 kg: the charge for an overland flight with a weight of 4,000 kg increased by **EUR 26,04** per landing per 1,000 kg weight or part thereof.

A surcharge of **EUR 6,07** for a terrain flight and **EUR 12,14** for an overland flight applies on weekends and holidays.

ARTICLE 3. PASSENGER-RELATED CHARGES

- I. In case of passenger transport, a passenger charge of **EUR 16,96** per departing passenger is due.
- II. The charge mentioned under I of this Article is due for the use of an aircraft weighing more than 4.000 kilograms.

- III. In the event of government-designated flights where passengers and/or their luggage must be checked by security personnel and/or with the use of electronic equipment, a security surcharge of **EUR 13,72** per departing passenger is due.
- IV. If the government adjusts, extends, amends, restricts and/or declares applicable also to other flights than usual, or otherwise changes the security checks, as a result of which the operator has to incur additional costs for carrying out these checks, these costs may be charged directly in addition to the charge as mentioned under III of this Article.
- V. To determine the amount of passenger-related charges, the owner of the aircraft weighing more than 4.000 kilograms must provide the operator, per flight, with a statement of the number of passengers on board at the departure of the aircraft. This statement must be made in a reliable and verifiable manner according to the operator's assessment. Accepted documents include the General Declaration, the Passenger Manifest, or the authorised load sheet. The determination of the number of passengers is based on the number of 'persons on board' minus the crew members.
- VI. The charge is not payable for flight crew and passengers under two years of age. The charge is due by the owner of the aircraft and is not collected separately from passengers.

ARTICLE 4. PARKING CHARGES

To park an aircraft at the airfield, parking charges are levied per 24-hour period or a part thereof, in accordance with the following.

- I. The parking charge for an aircraft is **EUR 3,92** per tonne, or part thereof, with a minimum of **EUR 19,58**.
- II. The parking charge, as referred to in the first paragraph of this Article, is due if the parking takes place over night (0.00 LT).
- III. No parking charges are levied if an aircraft is only parked on land owned by the owner or user of the aircraft, or for which the operator has entered into a lease or leasehold agreement with the owner or user, unless otherwise agreed in that agreement.

ARTICLE 5. SUBSCRIPTIONS

- I. The operator may, at the request of the owner or user of an aircraft belonging to or used by private establishments, private companies, or private institutions at the airport, conclude a subscription for landing an aircraft at the airfield under conditions set or to be determined by the operator. Monthly subscriptions can be concluded for aircraft weighing up to and including 4,000 kilograms for landing an aircraft at the airfield.
- II. The charge for concluding a monthly subscription is **EUR 245,36** per month.
- III. Notwithstanding the provisions of Article 2, Paragraph III, a **25%** discount is granted on the landing charges payable for an aircraft for which a monthly subscription as referred to in the first paragraph of this Article has been concluded.
- IV. A subscription as referred to in the first paragraph of this Article commences on the first day of the month and ends on the last day of the month.
- V. Subscriptions are each time automatically renewed for a period of one month, unless otherwise agreed with the operator.
- VI. The application for and termination of a subscription must be made at least seven days before the start of the new month.
- VII. The operator reserves the right to refuse the request of the owner or holder of an aircraft to conclude a subscription. A refusal will be communicated in writing to the applicant, stating reasons.

ARTICLE 6. AIR PASSENGER TAX

- I. In the context of the Dutch Environmental Taxes Act (Aviation Tax Act), the operator charges **EUR 29,40¹** per passenger departing for aircraft weighing more than 4.000 kilograms.
- II. A passenger is defined as a natural person aged 2 years or older who is transported on an aircraft other than as a member of the flight crew.

ARTICLE 7. OBLIGATION TO PAY

Subject to payment is the owner of an aircraft, the user thereof, and anyone acting as an authorised representative of the owner or user, with the proviso that each of the said individuals/legal entities is liable to pay the charges and payment by one releases the other(s).

ARTICLE 8. METHOD OF LEVY

- I. The landing charge is due immediately after the landing has taken place.
- II. The passenger-related charges, parking charges, and air passenger taxes are due at the time of departure of the aircraft.
- III. In deviation from the provisions in this Article under I, natural persons or legal entities that the operator deems eligible may be authorised to pay the charges due after receipt of an invoice drawn up for that purpose, subject to conditions set or to be determined by the operator. Payment must be made within 21 days from the date of receipt of the invoice. Failure to do so will entitle the operator to charge an interest of 12% per year on the outstanding amount.
- IV. The operator may determine that a deposit must be paid for the payment option as mentioned under III of this Article.

ARTICLE 9. OTHER PROVISIONS REGARDING THE LEVY OF FEES

- I. New Year's Day, Easter Sunday and Easter Monday, King's Day, Liberation Day in a lustrum year, Ascension Day, Whit Sunday and Whit Monday, and Christmas Day and Boxing Day are considered public holidays.
- II. For the application of the charges mentioned in Articles 2, 3, and 4, a rotorcraft, motor glider, and a microlight aircraft are also included in the definition of an aircraft.
- III. None of the charges mentioned in Articles 2 and 3 will be levied, if an aircraft, after having taken off from the airfield without landing at another airfield, returns due to adverse weather conditions, engine failure, or other unforeseen extraordinary causes.
- IV. If a rotorcraft rises to a low altitude for the relocation of the rotorcraft for parking and storage purposes at the airfield, this will not be considered a terrain flight.
- V. All charges mentioned in this regulation are exclusive of value-added tax (VAT) and in accordance with current legislation.
- VI. If the owner of an aircraft that weighs up to and including 4.000 kilograms cannot demonstrate the noise category in which the aircraft is classified, the charge will be based on category 1 through 2 (according to both Chapter 6 and Chapter 10 of the ICAO, Annex 16).

¹ Changes to the Aviation Tax Act will be implemented accordingly in this regulation from the moment an amendment comes into effect.

ARTICLE 10. APPLICABLE LAW

Dutch law applies exclusively to all rights, obligations, and disputes arising from this Airport Charges Regulation.

ARTICLE 11. EFFECTIVE DATE

This regulation enters into force on 1 April 2025.

As established by the director of N.V. Luchthaven Lelystad.

Jan Eerkens
General Director N.V. Lelystad Airport
